

# YASH PATEL

B.Tech Computer Science | Automation Developer Intern

[+91 9424314249](tel:+919424314249) | [yash273p@gmail.com](mailto:yash273p@gmail.com) | [LinkedIn](#) | [Portfolio](#)

## OVERVIEW

B.Tech Computer Science student with hands-on experience in workflow automation and AI-based integrations. Skilled in building automation solutions using Make.com, Airtable, Dropbox Sign API, and Vapi.ai. Experienced in developing database-driven web applications using HTML, CSS, JavaScript, and MySQL. Passionate about solving real-world problems through automation and continuous learning.

## ACADEMIC PROFILE

**B.Tech Computer Science at SVKM's Narsee Monjee Institute of Technology and Management.**

### SVKM's NMIMS

August 2022 - Currently Pursuing (August 2026)

CGPA - 2.45/4.0 (Till SEM VII).

### Senior Secondary (Class XII)

**Army Public School No.1 (CBSE)**

Year of Completion: 2022

Percentage: 68%

### Secondary (Class X)

**Army Public School No.1 (CBSE)**

Year of Completion: 2020

Percentage: 81%

## TECHNICAL SKILLS

- **Programming Languages:**  
C, C++, JavaScript, Python (Learning)
- **Web Technologies:**  
HTML, CSS, Bootstrap
- **Database:**  
MySQL, Airtable
- **Automation & Integration Tools:**  
Make.com, Vapi.ai, Dropbox Sign API, Webhooks
- **Tools:**  
Git, GitHub, Visual Studio Code
- **Concepts:**  
API Integration, Workflow Automation, Conditional Logic Processing, Database Design

## OTHER SKILLS

- Hobbies : Swimming, Playing Badminton, trekking, Cycling
- Languages : Hindi, English,

## INTERNSHIP EXPERIENCE

**Automation Developer Intern | Cognic Systems LLC |**

**Onsite**

**Jan 2025 - Present**

- Contributed to the design and development of workflow automation systems using Make.com and Airtable.
- Contributed in integrating third-party APIs including Dropbox Sign for document processing workflows.
- Developed AI-powered voice automation solutions using Vapi.ai for process optimization.
- Configured webhook-based integrations to enable cross-platform data exchange.
- Tested, debugged, and optimized automation systems to ensure reliability and performance.

### Key Project – Automation & AI Workflow System

(Project details confidential as per company policy)

- Worked on automation workflows involving document routing and conditional logic processing.
- Contributed to the development of AI-based voice interaction systems integrated with workflow triggers.
- Integrated third-party APIs including Dropbox Sign for document processing workflows.
- Gained hands-on experience in real-world automation deployment and performance optimization.

## PROJECT EXPERIENCE

**Laundry Management System**

Technologies: HTML, CSS, MySQL

- Developed a database-driven system for managing laundry orders and service records.
- Designed MySQL schema for billing and customer management.
- Built frontend interface using HTML and CSS for structured data handling.

### E-commerce Website

Technologies: HTML, CSS, JavaScript, MySQL

- Developed a responsive e-commerce website featuring product listings and shopping cart functionality.
- Implemented shopping cart logic using JavaScript for dynamic item management.
- Designed MySQL database for product inventory and order handling.
- Implemented form validation and structured data processing.
